

division symbol

dividend

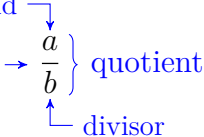

A diagram showing the division symbol \div between two variables a and b . The expression is $a \div b$. A blue arrow points from the label "division symbol" to the \div symbol. A blue arrow points from the label "dividend" to the a variable. A blue arrow points from the label "divisor" to the b variable. A blue bracket is placed under the entire expression $a \div b$.

divisor

quotient

dividend

fraction bar

A diagram showing a fraction $\frac{a}{b}$. A blue arrow points from the label "dividend" to the numerator a . A blue arrow points from the label "divisor" to the denominator b . A blue arrow points from the label "fraction bar" to the horizontal bar between a and b . A blue bracket is placed to the right of the fraction, and the label "quotient" is placed next to it.
